Art Unit 1623

INTERVIEW SUMMARY(cont.)

Claims discussed: All remaining of record, claim 1 in particular.

Identification of prior art discussed: The Kosak patent and parent application.

Description of the general nature of what was agreed to if an agreement was reached, or any other comment: Applicant was advised that examiner had received a substantial submission, but that one reference (Mark Davis is the sole author and is pictured on first page) could not be made of record because it failed to include a title page or another page identifying the requisite bibliographic information (journal name, volume(issue), and month and year of publication). Examiner the indicated to applicant that the Breslow declaration had been reviewed and that examiner concluded that Breslow had not entirely excluded the Kosak patent reference from consideration as prior art. In addition examiner indicated that applicant's claims had been searched to the degree this was possible, but that claim 1 could not be searched in its entirety because variable "A" had not been adequately defined in claim 1. Examiner also indicated that the instant claims were not allowable and that applicant would be receiving an Advisory Action to this effect in due course.
